### **NORMAN™ DEBUTS INNOVATIVE MOTORIZED SHUTTER AT IWCE**

SANTA FE SPRINGS, CA -- Norman, a leading manufacturer of custom hardwood and composite wood shutters, is pleased to present a battery-operated remote control shutter at the International Window Coverings Exposition in Washington, D.C. April 11-14, 2007.

Norman's new remote shutters feature several unique features. The whisper-quiet motor operates the shutter discreetly and efficiently. The remote control opens the louvers in eight pre-set angles. The control range switch allows the user to control one, several or multiple panels at a time. And, unlike other motorized systems, the louvers can also be operated manually.

The Norman Shutters product family includes three distinct shutter lines to satisfy each unique segment of the marketplace: Sussex® Shutters are completely customizable in luxurious hardwoods, Normandy® is an affordably priced hardwood option, and Woodlore® Shutters composite construction offers durable value. With more than 30 years of window coverings manufacturing experience, Norman Shutters stands behind all of its products with a lifetime limited warranty on materials and workmanship. To learn more about Norman Shutters, visit the company's website at [www.normanshutters.com](http://www.normanshutters.com) or call 866-NORMAN-8 (667-6268).
